Week 6		
Unit Title	CH(1) Sequence and series 1.4 Applications of arithmetic and geometric patterns	2.2 Area of a triangle
Classwork /Test:	Ex 1L page 39 Ex 1M page 43	Ex 2D page 68
Learning Extension	Please check google classroom	Google classroom, text & notebook
Week 7		
Unit Title	CH(1) Sequence and series 1.5 The binomial theorem	2.3 3D geometry:surface area and volumes
Classwork /Test:	Ex 1N page 52 Ex 1D page 54 Ex 1P page 56	Ex 2E page 71 Ex 2F page 74
Learning Extension	Please check google classroom	Google classroom, text & notebook

Week 8

Unit Title	CH(2) Functions 2.1 What is a function? 2.2 Functional notation	2.3 3D geometry:surface area and volumes	
Classwork/ Test:	Ex 2A page 68 EX 2B page 73	Ex 2I page 64 Ex 2G page 78 Ex 2H page 80	
Learning Extension	Please check google classroom	Google classroom, text & notebook	
Week 9			
Unit Title	CH(2) Functions 2.3 Drawing graphs of a functions 2.4 The domain and range of a function	Chapter review & Exam - style questions

Subject/ Item	DP-Environmental Science	DP-Biology
Week 6		

Unit Title	1.3 Sustainability	C1.1 Enzymes and metabolism
Classwork/Test:	Economic sustainability focuses on creating the economic structures and systems to support production and consumption of goods and services that will support human needs into the future	Enzymes as catalysts Role of enzymes in metabolism Anabolic and catabolic reactions
Learning Extension	Google Classroom, Oxford Course Companion Text book, Notes.	Google Classroom, Oxford Course Companion Text book, Notes.
Week 7		
Unit Title	1.3 Sustainability	C1.1 Enzymes and metabolism
Classwork/Test:	Common indicators of economic development, such as gross domestic product (GDP), neglect the value of natural systems and may lead to unsustainable development.	Role of molecular motion and substrate-active site collisions in enzyme catalysis Movement is needed for a substrate molecule and an active site to come together.
Learning Extension	Google Classroom, Oxford Course Companion Text book, Notes.	Google Classroom, Oxford Course Companion Text book, Notes.

Week 8

Unit Title	Ecology	C1.2 Cell respiration
Classwork/Test:	The biosphere is an ecological system composed of individuals, populations, communities, ecosystems.	What are the roles of hydrogen and oxygen in the release of energy in cells? How is energy distributed and used inside cells?
Learning Extension	Google Classroom, Oxford Course CompanionText book,Notes.	Google Classroom, Oxford Course CompanionText book,Notes.
Week 9		
Unit Title	Ecology	C1.2 Cell respiration
Classwork/Test:	Classification of organisms allows for efficient identification and prediction of characteristics	ATP as the molecule that distributes energy within cells.Life processes within cells that ATP supplies with energy
Learning Extension	Google Classroom, Oxford Course CompanionText book,Notes.	Google Classroom, Oxford Course CompanionText book,Notes.

Subject/ Item	DP-Chemistry	DP-Physics
---------------	---------------------	-------------------

Week 6		
Unit Title	Reactivity 2.1: How much? The amount of chemical change	A. Space, time and motion A.1 Kinematics
Classwork/Test:	Balancing equations Stoichiometric calculations Limiting reactants Reaction yield	Understandings Standard level and higher level: Students should understand: • that the motion of bodies through space and time can be described and analysed in terms of position, velocity, and acceleration • velocity is the rate of change of position, and acceleration is the rate of change of velocity • the change in position is the displacement • the difference between distance and displacement
Learning Extension	Home tasks to be shared via google classroom	Google Classroom, Oxford Course Companion Text book, Notes.
Week 7		
Unit Title	Models of the particulate nature of matter (Structure 1.4 - Mole conversions)	A. Space, time and motion A.1 Kinematics
Classwork/Test:	Home tasks to be shared via google classroom Concentration of solutions, Titration techniques Unit Quiz/test	the difference between instantaneous and average values of velocity, speed, and acceleration, and how to determine them

		<ul style="list-style-type: none"> the equations of motion for solving problems with uniformly accelerated motion as given by
Learning Extension	Home tasks to be shared via google classroom	Google Classroom, Oxford Course Companion Text book, Notes.

Week 8		
Unit Title	Models of the particulate nature of matter Structure 1.5 - Ideal gases	A. Space, time and motion A.1 Kinematics
Classwork/Test:	Atom economy Lab investigation on unit concepts Mole-to-volume conversions And Gas laws. Unit Quiz/test	Motion with uniform and non-uniform acceleration <ul style="list-style-type: none"> the behaviour of projectiles in the absence of fluid resistance, and the application of the equations of motion resolved into vertical and horizontal components the qualitative effect of fluid resistance on projectiles, including time of flight, trajectory, velocity, acceleration, range, and terminal speed
Learning Extension	Home tasks to be shared via google classroom	Google Classroom, Oxford Course Companion Text book, Notes.

Week 9		
Unit Title	Structure 2: Classification of matter Structure 3.1: The periodic table	A.2 Forces and momentum
Classwork/Test:	Lab investigation on unit concepts Lab investigation on unit concepts Unit Quiz/test General classification of the periodic table Periodic trends	Students should understand: <ul style="list-style-type: none"> • Newton's three laws of motion • forces as interactions between bodies • that forces acting on a body can be represented in a free-body diagram • that free-body diagrams can be analysed to find the resultant force on a system
Learning Extension	Home tasks to be shared via google classroom	Google Classroom, Oxford Course Companion Text book, Notes.

Subject/ Item	BTEC-Art and Design	DP-Digital Society
Week 6		
Unit Title	A1.1 Informing Ideas	Section 3: Content 3.1 Data and data analysis
Classwork/Test:	A1.1-Task(2) Presentation A1.1-Task(3)	3.1A Data as distinct from information, knowledge and wisdom -Exam practice questions 3.1B Types of Data -Real world example
Learning Extension	Google Classroom Art & Design Guide	Google classroom, DS guide
Week 7		
Unit Title	A1.1 Informing Ideas	Section 3: Content 3.1 Data and data analysis
Classwork/Test:	A1.1-Task(3) Presentation A1.1-Task(4) Reflection for A1.1	3.1C Uses of data 3.1D Data life cycle -ATL activity
Learning Extension	Google Classroom Art & Design Guide	Google classroom, DS guide
Week 8		
Unit Title	A1.2 Problem Solving	Section 3: Content 3.1 Data and data analysis
Classwork/Test:	A1.2-Task(1)	3.1E Ways to collect and organize data -ATL activity 3.1F Ways of representing data 3.1G Data security -Exam practice questions
Learning Extension	Google Classroom Art & Design Guide	Google classroom, DS guide

Week 9		
Unit Title	A1.2 Problem Solving	Section 3: Content 3.1 Data and data analysis
Classwork/Test:	A1.2-Task(1) Presentation A1.2-Task(2)	3.1H Characteristics and uses of big data and data analytics 3.1I Data dilemmas -ATL activity
Learning Extension	Google Classroom Art & Design Guide	Google classroom, DS guide

Subject/ Item	DP-Business Management	
Week 6		
Unit Title		
Classwork/Test:		
Learning Extension	Google classroom, Classroom Slides, IBDP Subject guide , Google classroom, notebook, file	
Week 7		
Unit Title		
Classwork/Test:		
Learning Extension	Google classroom, Classroom Slides, IBDP Subject guide , Google classroom, notebook, file	

Week 8	
Unit Title	
Classwork/Test:	
Learning Extension	Google classroom, Classroom Slides, IBDP Subject guide, Google classroom, notebook, file

Week 9	
Unit Title	
Classwork/Test:	
Learning Extension	Google classroom, Classroom Slides, IBDP Subject guide, Google classroom, notebook, file

Subject/ Item	BTEC-Business Week 6	DP-Economics Week 6
Unit Title	Unit 1A: Types of businesses	Chapter 3: Income elasticity of demand (YED)
Classwork/Test :	Different business objectives: Growth & market share. Students will complete "Check for understanding" MCQ's Students will be given case studies to complete.	How to write Paper 1 question, a. Homework to prepare for test in week 7 on paper 1
Learning Extension	Google classroom, Slides, Google classroom, Textbook, Google forms	Google classroom, Slides, IBDP Subject guide, Google sites, Google classroom
	BTEC-Business Week 7	DP-Economics Week 7
Unit Title	Unit 1B: Investigate how businesses are organised	Chapter 3: Income elasticity of demand (YED)
Classwork/Test :	Different types of organisation structures:	Updating Google sites for YED. InThinking classwork posted to Google classroom.

	Students will complete "Check for understanding" MCQ's Students will be given case studies to complete.	Quarter test- Paper 1, chapter 1-3.1
Learning Extension	Google classroom, Slides, Google classroom, Textbook, Google forms	Google classroom, Slides,IBDP Subject guide,Google sites, Google classroom

Week 8		
Unit Title	Unit 1B: Investigate how businesses are organised	Chapter 3: Price elasticity of Supply (PES)
Classwork/Test:	Smart Goals: Students will complete "Check for understanding" MCQ's Students will be given case studies to complete	Updating Google sites for PED. InThinking classwork posted to Google classroom related to PED.
Learning Extension	Google classroom, Slides, Google classroom, Textbook, Google forms	Google classroom, Slides,IBDP Subject guide,Google sites, Google classroom

Week 9		
Unit Title	P3: Explore the organisation structures, aims and objectives of two contrasting business organisations. M2: Analyse how the structures of two contrasting business organisations allow each to achieve its aims and objectives.	Chapter 4: Government intervention
Classwork/Test:	Students will Complete P3,M2 external Pearson activities in class and submit a plagiarism and AI report	Updating google sites on the different types of government interventions in Microeconomics. Completing of InThinking classwork posted on Google classroom
Learning Extension	Google classroom, Slides, Google classroom, Textbook, Google forms	Google classroom, Slides,IBDP Subject guide,Google sites, Google classroom

Subject/ Item		CP Chemistry
Week 6		
Unit Title	Periodic table trends	
Classwork/Test:	Effective nuclear charge classwork / Physical properties task / periodicity A3 poster to be done in class (students must have their tools)	
Learning Extension	Tasks and formative assessments to be shared via google classroom	
Week 7		
Unit Title	Periodic table trends	
Classwork/Test:	Chemical properties worksheet (I) / Quiz on Tuesday 22.10.2024 about physical properties / Chemical properties worksheet (II)	
Learning Extension	Tasks and formative assessments to be shared via google classroom	

		Week 8
Unit Title	Periodic table trends	
Classwork/Test:	periodicity test on Tuesday 22.10.2024 / introduction to chemical bonding	
Learning Extension	Tasks and formative assessments to be shared via google classroom	

		Week 9
Unit Title	Chemical Bonding	
Classwork/Test:	ionic bond worksheet (I) / ionic bond worksheet (II) / ionic bond quiz	
Learning Extension	Tasks and formative assessments to be shared via google classroom	

Subject/ Item	DP-Psychology	Details
Week 6		
Unit Title	Cognitive Approach	Intro: cognitive explanations of behaviour. There are two cognitive processes that are studied in this unit: memory and thinking.
Classwork/Test:	Classwork/ Quiz/ test	
Learning Extension	Powerpoint / slides/textbook/youtube/case studies	
Week 7		
Unit Title	Cognitive Processing	1. Mental representations guide our behavior. 2. Models can be used to help us understand complex processes such as memory and decision-making. 3. Humans are information processors. 4. The mind, although it cannot be directly observed, can be studied scientifically.
Classwork/Test:	Classwork/ Quiz/ test	
Learning Extension	Powerpoint / slides/textbook/youtube/case studies	

Week 8		
Unit Title	Schema theory	Schema are mental representations that are derived from prior experience and knowledge.
Classwork/Test:	Classwork/ Quiz/ test	
Learning Extension	Powerpoint / slides/textbook/youtube/case studies	

week 9		
Unit Title	Multi-store Model	The concept of memory refers to the process by which information is encoded, stored, and retrieved. Cognitive. / types of memory
Classwork/Test:	Classwork/ Quiz/ test	
Learning Extension	Powerpoint / slides/textbook/youtube/case studies
